II. Purpose of Addendum

Licensees requested an increase in capacity.

III. Methodology

An on site inspection was conducted on 9/16/05.

IV. Description of Findings and Conclusions

One bedroom that had previously housed a double bed for a household member had been rearranged so that now two twin beds are available. Square footage is adequate for two beds. Temporarily, the female household member will occupy one of the beds with the other being for a female adult foster care resident. An addition is being added to the home and upon completion, the household member will be moving to the addition.

V. Recommendation

I recommend that the facility capacity be increased to three.
