III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

Monet House Inn is part of a multi-care facility, which includes an Administrative Wing, 60-bed Nursing Home and two 20-bed adult foster care facilities, located at 6700 W S

Saginaw Road, Bay City, Michigan 48706. The facility is owned by Bayland Construction Company and leased to Wood Care VIII, Incorporated. Wood Care VIII, Incorporated is doing business under an assumed name of Cartel Inns of Tri-Cities. Monet House Inn adult foster care will be utilized as a memory care facility for aged adults 55 years of age and older. The Monet House Inn is a ranch style facility, built on a slab, with all rooms on one level. The facility is handicap accessible, with corridors over 8 feet wide.

There is an individual forced air, gas furnace in each resident room to allow the staff to regulate the room temperature to the preference of the resident. The individual furnaces are surrounded by 1 hour rated closet with a rated door as well as having a sprinkler head within the furnace closet. Monet House Inn utilizes a boiler to furnish continuous hot water throughout the facility. The boiler is located on the upper level mezzanine, which is not located above a resident bedroom. The facility has a roof top furnace to heat the corridors in the facility. The rooftop furnace has a vertical 1-hour-fire-resistance rating wall provided by the roof surface. The rooftop furnace ductwork has dampers at each corridor to allow sections of the ductwork to be shut off in case of emergency so that smoke could not travel throughout the facility. All furnaces and boiler systems were inspected and approved by the Bureau of Construction Codes and Fire Safety (BCCFS) Plan Review process. Certificates of final approval for all furnaces and the boiler system are included in the licensing file. The facility is equipped with interconnected, hardwire smoke detection system, with battery back up, which was installed by a licensed electrician and is fully operational. The Plan Review for this facility gave a final approval on 10/11/07. The Bay County Environmental Health Inspection was completed with full approval on 10/30/07.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
503,504,515,516	11 x15.8 +17 x 6 + 12 x 5 + 4.7 x4.7 + 4.9 x 8.4	399	Double Occupancy
502,505,509,510,514 ,517	12.2 x 14.11 + 12.2 x 10.3	298	Single Occupancy
501,506,508,511,513 ,518	22.8 x 7.6 + 22.8 x 4.6	278	Single Occupancy

The living, dining, and sitting room areas measure a total of 951 square feet of living space (47.5 square feet of living space per resident). This exceeds the minimum of 35 square feet per resident requirement. There are also 8.8-foot wide corridors throughout the building, which provide additional space for socializing.

Based on the above information, it is concluded that this facility can accommodate twenty (20) residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

B. Program Description

Admission and discharge policies, program statement, refund policy, personnel policies, and standard procedures for the facility were reviewed and accepted as written. The applicant intends to provide 24-hour supervision, protection and personal care to twenty (20) male or female ambulatory/non ambulatory adults whose diagnosis is developmentally disabled or mentally impaired, in the least restrictive environment possible. The program will include social interaction skills, personal hygiene, personal adjustment skills, and public safety skills. A personal behavior support plan will be designed and implemented for each resident's social and behavioral developmental needs. Residents will be referred from: Council on Aging, local hospitals, Department of Human Services and from marketing advertisement strategies.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The licensee will provide all transportation for program and medical needs. The facility will make provision for a variety of leisure and recreational equipment. It is the intent of this facility to utilize local community resources including public schools and libraries, local museums, shopping centers, and local parks.
