III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

This one-story wood frame house with walk-out basement and attached 3-car garage is located in a rural area north of Tekonsha, MI. The applicant and his wife will occupy the basement area and residents will occupy the 1st floor only. The 1st floor includes one full bathroom, 3 private resident bedrooms, living room, dining room, and kitchen. The basement has a gas-fired furnace and water heater, and clothes washer/dryer. The home is not wheelchair accessible. It is in compliance with space requirements.

The home has private water and sewer and on file is a recent report approving both from the Calhoun County Health Department. It is also in compliance with rules pertaining to environmental health and sanitation.

I conducted fire safety inspections and found the home to be in compliance with rules relating to fire safety. On file is documentation that the furnace and water heater were recently inspected by a qualified service and found to be in safe working order. There are battery operated smoke detectors in areas required by rule.

The applicant and his wife own the home. On file is proof of ownership and written permission from the wife for it to be used for adult foster care.

B. Program Description

On file are the applicant's and his wife's medical, TB, and criminal record clearances.

The applicant is approved to provide care for the aged, mentally ill, and developmentally disabled populations. Both genders are accepted. The applicant's admission and discharge procedures will be consistent with AFC Family Home rules. Transportation services will be specified in the resident care agreements. Emergency medical transportation is available by dialing 911.

The applicant will issue and review a copy of resident rights with each admission. The applicant was previously licensed to operate an AFC Family Home and is therefore familiar with rule requirements relating to home, resident care, and employee/resident record keeping, including the handling and accounting of resident funds and criminal background check requirements for employees (Act 29).

The applicant will have at least one direct care staff on duty, 24 hours/day while residents are in the home. A review of the application indicates substantial compliance with rules relating to financial capability of the applicant.

C. Conclusion

This study is based upon Act No. 218 of the Public Act of 1979, as amended, and the administrative rules governing the operation of AFC Family Homes. Included in the inspections were review of policies and practices regarding residential care, administrative management, as well as Fire Safety and Environmental Health and Sanitation. The findings indicate this applicant is in substantial compliance with Act No. 218 and the applicable rules.

IV. RECOMMENDATION

I recommend issuance of a temporary license to this AFC adult family home (capacity 3).
