II. Purpose of Addendum

To re-evaluate license capacity.

III. Methodology

Onsite inspection was completed on 11/13/2008 to re-measure the living room, dining room, and Bedroom #1.

IV. Description of Findings and Conclusions

Licensee has enclosed the room formerly known as the "sun porch". This room was converted to a separate dining area for the residents. The room is well-insulated and heated by an electrical baseboard system.

During the onsite inspection, the rooms were measured and have the following dimensions and capacity:

Living Room: $22.58 \times 12.33 = 278$ sq. ft.

Dining Room: $14.66 \times 6.5 = 95$ sq. ft.

Bedroom #1: $9.75 \times 13.33 = 130$ sq. ft.

On 11/14/08, the licensee designee submitted a written request to increase the license capacity to 5 residents.

Based on the living room, dining room, and bedroom dimensions and the designee's request to increase the capacity, I conclude that the home can accommodate 5 residents.

V. Recommendation

Recommend increasing the licensed capacity from 4 to 5 residents.
