IV. Description of Findings and Conclusions

Jolene's Country Home is a ranch home with a two car attached garage located in Ortonville, Michigan. The home consists of four bedrooms, three bathrooms, and a large living room with a large kitchen dining area which is combined.

The home has a private water and sewerage system. The Oakland County Health Department conducted an inspection on 10/31/08 at which time the facility received a "B" rating with the maximum household capacity of 4 people, including family members, due to the septic system's current design.

On 09/04/09, the Oakland County Health Department conducted another inspection and determined that the "facility is approved for a maximum resident number of 3. Comparable data was provided and a site evaluation conducted concludes that the existing system is acceptable for the increase in residents to 3."

Bedroom #1 measures 11.5 x 13 = 149.5 square feet.

Bedroom #2 measures 12 x 12.5 = 150 square feet.

The living room measures 20 x 22= 440 square feet.

The dining room and kitchen area measures 12 x 14 = 168 square feet.

The total living space equals 608 square feet for six occupants. This is adequate space for the licensee, his family, as well as the residents.

V. Recommendation

I recommend an increase in capacity from (1) one resident to (3) three residents based on the approval of the environmental inspection.
