RE: Application #: AL500302894
Prestige Commons II
33503 23 Mile Rd
Chesterfield Twp., MI 48047

Dear Ms. Wicks:

Attached is the Original Licensing Study Report for the above referenced facility. The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, a temporary license with a maximum capacity of 19 is issued.

Please review the enclosed documentation for accuracy and feel free to contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please feel free to contact the local office at (248) 975-5053.

Sincerely,

Maureen J. Fisher, Licensing Consultant

05/25/2011	Inspection Completed-Environmental Health: "A" rating.
05/26/2011	Contact – Documents received. Plan review approval/fire marshal approval documents received from fire marshal.

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

This facility and its companion facility (Prestige Commons I) were originally licensed 11/1/2005 to corporate licensee Salt River Place L.L.C. and were new construction at that time. This application was made due to a change in licensee for both facilities. This facility is located on the first floor of an 18-bed building and is connected by a corridor to the other first-floor facility with 19 beds. Of note, the second floors of both buildings house aged independent adults and are not licensed. The facility will service male and female residents in need of adult foster care in the categories of physical handicaps, Alzheimer's, and aged.

The facility features four studio units and six bedrooms that have their own attached living areas. All units feature private, attached bathrooms with shower facilities and kitchen-like areas with sinks, cupboards, and small refrigerators. The facility also features a reception and sitting area, personal laundry room, dining room, activity room, lounge, public restroom, spa room for physical therapy with toilet facilities, and an office. A commercial kitchen, commercial laundry room, mechanical and electrical rooms, and an elevator are located within the corridor area adjoining the two buildings. The furnaces are gas forced air. As the second floor of the building features a beauty salon and room for physical therapy, residents of the facility will use the elevator but only when accessing these services.

In accordance with R 400.15409(2) and (3), the room designation, dimensions, square footage, and capacity of the bedrooms and studio apartments are as follow:

Room 111	12'10" x 10'9' plus 2'5" x 5'	150 square feet	Capacity: 2
Room 112	12'10" x 10'9' plus 2'5" x 5'	150 square feet	Capacity: 2
Room 113	12'8" x 15'6"	196 square feet	Capacity: 2
Room 114	12'6" x 15'6"	194 square feet	Capacity: 2
Room 115	12' x 15'7"	187 square feet	Capacity: 2
Room 116	12'10" x 10'9' plus 2'5" x 5'	150 square feet	Capacity: 2
Room 117	12'10" x 10'9' plus 2'5" x 5'	150 square feet	Capacity: 2
Room 118	15'5" x 12'5"	192 square feet	Capacity: 2
Room 119	10' x 10'9" plus 2'5" x 5'	120 square feet	Capacity: 1
Room 120	10'2" x 10'9" plus 2'5" x 5'	121 square feet	Capacity: 1

In accordance with R 40.14505(1), the following rooms were measured for square feet of indoor living space:

Dining room	34' x 18'	612 square feet
Reception area/lounge	18'4" x 18'9"	343.7 square feet

The living space in these two areas meets and exceeds the requirement of this rule. Of note, the facility contains additional living space in the bedroom units identified above as rooms 111, 112, 116, 117, 119, and 120 which is used only by the residents of those individual units. Therefore, I have not included that living space in the determination as to adequate living space. The bedrooms and facility are fully furnished as prescribed by R 400.15410 and R 400.15411.

Sanitation:

The facility is serviced by the public water and sewage systems of the Township of Chesterfield. The Macomb County Environmental Health Department has determined that the facility is in substantial compliance with applicable rules.

Fire Safety:

The fire marshal from the Bureau of Construction Codes and Fire Safety has determined that the facility is in full approval of rules and regulations pertaining to fire safety.

B. Program Description

Lifehouse Prestige Commons Operations LLC submitted an application for this license on 6/12/2009 and has been operating the facility under an agreement made with the prior licensee since the summer of 2009. The corporation was established 5/7/2009 in the State of Michigan The application states they will accept male and female adults who are at least 60 years of age in need of adult foster care due to age, Alzheimer's,

and/or physical handicap; the facility is wheelchair accessible. The facility is located in the suburban community of Chesterfield Township, northeast of the City of Detroit. To supplement services provided within the facility, medical, recreation, social, and religious resources are located within close proximity to the facility which is situated on 23 Mile Road (also known as M-29) just over two miles east of I-94 expressway.

The applicant has submitted all requested corporate documents including financial records and copies of all policies and procedures for review and approval. The applicant has provided financial documentation of sufficient financial resources to provide for the care of the residents. The admission policy, Alzheimer's policy, and program statement are consistent with the stated objectives of the licensee to service the population identified on the application.

The corporation has named Pamela Wicks as licensee designee and administrator to conduct business and make decisions on behalf of the corporation. Ms. Wicks has submitted documentation to verify that she meets rule requirements pertaining to qualifying as a licensee designee and as an administrator for facilities serving the identified populations. Ms. Wicks also supplied licensing clearance requests and health and tuberculosis testing results to confirm her good moral character and physical suitability.

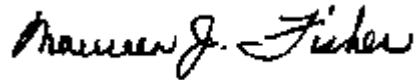

The applicant is now an experienced provider; I have provided technical assistance and confirmed the applicant is knowledgeable as to rule requirements pertaining to facility, staff, and resident record keeping, medications procedures, the securing of medications and toxic chemicals (cleaning materials, etc.), maintenance of the facility, and the handling and accounting of resident funds. I also confirmed the applicant is also knowledgeable as to statutory requirements (Section 400.734b of PA 218) pertaining to the hiring or contracting of persons who provide direct service to residents.

C. Rule/Statutory Violations

As of the date of the final inspection, the facility was in substantial compliance with all applicable rules.

IV. RECOMMENDATION

I recommend issuance of a temporary license to this AFC adult large group home (capacity 19).
