Capacity: 5 (increased in this addendum to 6)

II. Purpose of Addendum

The purpose of this addendum is to increase the capacity of this home from five (5) to six (6) residents.

III. Methodology

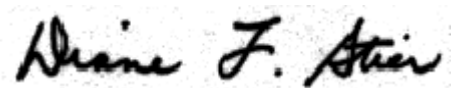

On 5/11/2011, the licensee submitted a request to increase the capacity of the home from five to six residents.

IV. Description of Findings and Conclusions

This home has been licensed since 4/12/1999. There are five bedrooms in the facility, the smallest having 140 square feet. Bedroom #5, in the southeast corner of the home, will be changed from single to double occupancy. This bedroom has 204 sq. ft., more than the 65 sq. ft. per resident required by Rule 409(3). The licensee has obtained written approval from the guardian of the resident currently occupying that bedroom for the change from single to double occupancy. The home has nearly 800 sq. ft. of living space available in the home, which is more than sufficient for six residents.

V. Recommendation

I recommend that the capacity of this home be changed from five (5) to six (6) residents, effective 5/12/2011.
