**II. Purpose of Addendum**

Increase in capacity.

**III. Methodology**

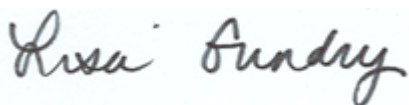

On December 1, 2011 the licensee requested an increase in the capacity of the home. Licensee Mary Dunn stated that the modifications would be completed in the Spring 2011, by the time of the renewal inspection. On July 7, 2011 an onsite renewal inspection was completed. The Northwest Bedroom #2 was measured and inspected. The total square footage of the bedroom was increased from 125 to 131 square foot.

**IV. Description of Findings and Conclusions**

The home was originally licensed for five residents but did not have enough square footage in Bedroom #2 for two residents. Bedroom #2 is now suitable for two residents. The licensee shortened the length of the closet in order to increase the usable floor space in the bedroom. The home is currently equipped to be suitable for two residents.

**V. Recommendation**

It is recommended that the capacity of the home increase from 5 to 6 residents.
