## **II. Purpose of Addendum**

Mrs. Beres requested that aged population be added to the population served.

## **III. Methodology**

8/24/11 Contact PH

9/28/11 Contact PH

9/28/11 Changed terms of license to include aged population.

## **IV. Description of Findings and Conclusions**

Ms. Beres has had a resident in her home for many years who now meets the criteria for aged services. She would like to maintain this resident in her home and needed to add aged population to the terms of her license in order to get the additional resources available to her resident. The home currently has five residents who are all older adults. Three of the residents are aged adults.

The bedrooms, bathroom, kitchen and living room of the facility are on one floor which makes it accessible for any ambulatory needs. The home provides 24 care and supervision.

A review of the policies and procedures of the facility determined that the home is able to meet the needs of the aged population.

## **V. Recommendation**

It is recommended that aged population be added to Ms. Beres license.
