II. Purpose of Addendum

The purpose of this addendum is to increase the licensed capacity of this facility from the current 16 residents to a maximum of 20 residents.

III. Methodology

On May 10, 2012, Licensee Designee Jennifer Ransom submitted a request to increase the capacity of this facility from 16 to 20 residents. It is noted that this facility had previously been licensed for 20 residents.

I conducted an on-site inspection of the Aloha Ranch AFC home on May 10, 2012. I measured resident bedrooms and resident living space.

IV. Description of Findings and Conclusions

The facility has 10 bedrooms, eight of which share a full bathroom. The remaining two resident bedrooms have a private bath. Each bedroom is 18 feet by 8 feet 7 inches totaling 153 square feet of space in each bedroom and can accommodate two residents in each bedroom. Each bedroom also has a nook for a closet and dresser. This nook is not included in the above noted bedroom floor space.

The facility has a large dining room, recreation room and television room. Total indoor living space of these three rooms is 1881 square feet. This greatly exceeds the requirement of 35 square feet per resident.

This facility has six full bathrooms for resident use.

V. Recommendation

I recommend the licensed capacity for this facility be increased to 20 residents.
