IV. Description of Findings and Conclusions

Baseline Home was originally licensed on 04/23/12 for a capacity of 4 residents. The facility is a single story structure with all bedrooms and other living areas located on the main floor. The licensee renovated an area to the south of the dining room to create 2 single occupancy resident bedrooms, 1 full bathing area and a laundry room.

Each bedroom contains in excess of the required 80 square feet of living space. The bedrooms' furnishings meet the licensing requirements. The living room of the home contains 572 square feet which is more than adequate for 6 residents living in the home. The kitchen and dining room are adequate for the increased capacity.

5 SE	10'1" x 9'6"	95	1

V. Recommendation

It is recommended that the licensed capacity of Baseline Home be increased from 4 to 6 residents effective 08/31/2012 based on the remodeling completed in the home.
