## II. Purpose of Addendum

The Licensee made a modification request to increase her capacity from 4 to 6 residents. The Licensee removed a large closet from two of the current resident bedrooms and replaced them with large dressers. This increased the square footage to each of the two bedrooms. The rule "R 400.1433 Bedroom furnishings Rule 33. (1) Bedroom furnishings shall include an adequate closet, wardrobe, or a dresser." The Licensee has chosen to use dressers rather than have a closet.

## III. Methodology

On 03/20/2013 I completed an inspection on site and measured bedroom # 1 and #2.

## IV. Description of Findings and Conclusions

In the Original Licensing Study Report, dated 03/08/2011, under the Physical Description of Facility, it was recorded as bedroom # 1 having 121.24 square footage and now it measures 130.14 square feet which is large enough for two (2) residents. Bedroom # 2 was recorded in the Original Licensing Study, as having 114.2 square footage and now it measures 177.15 square foot, which is large enough to have two (2) residents.

The two living rooms and the dining room along with the open area in the lower level have more than adequate space for six (6) residents.

## V. Recommendation

I recommend increasing the capacity of this family home adult foster care home from 4 residents to six (6) residents.
