II. Purpose of Addendum

On 6/4/2014, licensee designee John Grawey submitted a request for modification of the terms of the license to increase capacity of the facility from two residents to three residents.

III. Methodology

6/4/2014 Review of original licensing record; license originally issued for a maximum of four residents 5/16/1991.

6/4/2014 Inspection completed on-site. Assessment and measurements of the living and bedroom spaces completed.

IV. Description of Findings and Conclusions

During the on-site inspection of 6/4/2014, I measured the community space within the facility as this information was not included in the 1991 original licensing report. The living room measured 18'6" x 15'2" for a total of 280.6 square feet. The dining area measured 11'4" x 7'6" for a total of 85 square feet. I determined that living space totals 365.6 square feet, meeting and exceeding the requirements of R 400.14405 for a small group home with a maximum capacity of up to six residents.

The licensing study report of 1991 designated the three bedrooms as #1 (southwest), #2 (southeast), and #3 (northwest). The licensee had de-activated bedroom #1 for resident use, converting it to office space and had retained bedrooms #2 and #3 for resident use, establishing maximum occupancy of the facility at two so that residents would have private bedrooms. This request to modify terms includes re-activating bedroom #1 for resident use and increasing the facility capacity to three as each resident is intended to have a private bedroom.

I measured bedroom #1 and am including the established square footage for bedrooms #2 and #3 with maximum capacities per those measurements. They are as follow:

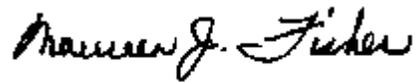

Bedroom #1: 11'3" x 11'3" plus 2'5" x 2'10" totaling 133.41 square feet. The maximum capacity for this bedroom could be two; the licensee is requesting the bedroom be licensed for one.

Bedroom #2: 104.2 square feet; maximum capacity one.

Bedroom #3: 215 square feet; maximum capacity of two but the room is furnished for one resident.

V. Recommendation

The facility has adequate bedroom and living space to accommodate the licensee's request to increase capacity from two to three residents. I recommend increasing the approved capacity of the facility to three.
