06/03/14-Telephone call made

Spoke with licensee designee, Phillip Mastrofrancesco confirming receipt of the modification request and requested updated program statement and admission policy to reflect the additional populations to be served.

06/05/14-Contact-Document received

Received updated program statement and admissions policy

07/16/14-Inspection completed On-site

IV. Description of Findings and Conclusions

On 07/16/14, I conducted an onsite inspection at the Ray Residence. The home does not require wheelchair ramps as the construction of the home does not require it. The home is on grade, which will allow easy access in and out without the use of wheelchair ramps. In addition to the request of wheelchair accessibility, Phillip Mastrofrancesco requested to add the physically handicap to the license. The licensee designee has the experience and training required to serve this population.

V. Recommendation

I recommend the license be modified to allow for the admission of residents that require the regular use of a wheelchair, in addition to the physically handicapped.
