II. Purpose of Addendum

On September 29, 2014, I reviewed a *Request For Modification Of The Terms Of The License*. The licensee requested an increase in capacity and change of use space in writing.

III. Methodology

On September 29, 2014, I reviewed a *Request For Modification Of The Terms Of The License*.

On September 29, 2014, I inspected and measured private bedroom Number 5 and the common areas of the facility.

On September 29, 2014, I reviewed the *Emergency Evacuation Routes*.

IV. Description of Findings and Conclusions

On September 29, 2014, I reviewed a *Request For Modification Of The Terms Of The License*. The licensee requested this private bedroom be changed to a semi-private bedroom thusly increasing the capacity from ten (10) residents to eleven (11) residents.

On September 29, 2014, I inspected and measured private bedroom Number 5. This bedroom has necessary furnishings and ample square footage to make this private bedroom into a semi-private bedroom. There is also enough common space to accommodate 11 residents. Please refer to the *Original Licensing Study Report* for additional details.

On September 29, 2014, I reviewed the posted *Emergency Evacuation Routes*. This plan did not change with the addition of another resident in bedroom Number 5.

V. Recommendation

I recommend an increase in capacity from ten (10) residents to eleven (11) residents and changing private bedroom Number 5 to a semi-private bedroom.
