## **III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

### **A. Physical Description of Facility**

The facility is a trailer home located in a subdivision of other trailer homes in the city of Kentwood. The main floor consists of a living & dining room area, kitchen, full bathroom, 2 resident bedrooms and a bedroom with another full bathroom that the licensee will occupy. There is a laundry room and utility room. The facility is not barrier free. The facility utilizes public water and sewer systems.

The natural gas powered water heater and newly installed furnace are located in the utility room equipped with an automatic self-closing device and positive latching hardware. The facility is equipped with an interconnected, hardwire smoke detection system, with battery back up, which was installed by a licensed electrician and is fully operational. There is a fire extinguisher in the home.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	9'6" x 14'	133 sq. ft.	2
2	9'x9'	81 sq. ft.	1

The living & dining room areas measure a total of 140 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.
