**III. Methodology**

01/30/2017 – Inspection completed on-site

**IV. Description of Findings and Conclusions**

During this inspection, I measured the room size of Bedroom 1 which was approved for one resident. The room dimensions are 11' x 12' for a total square footage of 132. Rule 400.1432(2) requires "A bedroom shall have not less than 65 square feet of usable floor space per bed." Therefore Bedroom 1 has enough floor space for two beds.

**V. Recommendation**

I recommend the capacity of this license be increased from three to four residents.
