II. Purpose of Addendum

The purpose of this addendum is to document the modification in the floor plan submitted at the time of the original license issuance.

III. Methodology

On 03/06/2018, in conjunction with the onsite license renewal inspection, I conducted an inspection of two resident bedrooms, previously the facility's attached garage.

IV. Description of Findings and Conclusions

Bedroom #4 and Bedroom #5 were measured, and the dimensions are as follows:

Bedroom #4 contains 157 square feet (16' x 10'8" minus 6' x 2'3") and will accommodate one (1) resident.

Bedroom #5 contains 157 square feet (16' x 10'8" minus 6' x 2'3") and will accommodate one (1) resident.

In addition, there was modification in the use of the following bedrooms:

Bedroom #1, which contains 143 square feet, will accommodate one (1) resident.

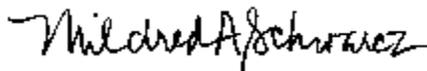

Bedroom #2, which contains 147 square feet, will accommodate one (1) resident.

Bedroom #3, which contains 156 square feet, will accommodate two (2) residents.

I determined that the facility is in substantial compliance with all applicable licensing rules pertaining to environmental health and fire safety, including interior finish, windows, doors, door hardware, and smoke detectors. Both bedrooms contained the required furnishings.

V. Recommendation

I recommend no change in the license.
