III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The Beacon Home @ Jackson is a ranch style facility located in a rural area near Jackson. It has 3 bedrooms and 2.1 bathrooms. It has private water and sewer which has been inspected and approved by a Jackson County Environmental Health Department sanitarian. The furnace and hot water heater are in the basement with a 1-3/4-inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top/bottom of stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
SE	12'x13'	156	2
NE	14'x12'9"	179	2
NW	12'9"x10'3"	132	2

The living, dining, and sitting room areas measure a total of 399 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

The program will include social interaction skills, personal hygiene, personal adjustment skills, and public safety skills. A personal behavior support plan will be designed and implemented for each resident's social and behavioral developmental needs. Residents will be referred from CMH boards and private sources.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The licensee will provide all transportation for program and medical needs. The facility will make provision for a variety of leisure and recreational equipment.
