III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The facility is a ranch-style home located on a tree-lined street in suburban Walker in a subdivision of similarly constructed homes. The main floor of the facility consists of a living room, kitchen with dining area, three resident bedrooms, one full bathroom, one ½ bathroom, and a staff office. The lower level is partially finished with a bathroom and sleeping area for live-in staff. The laundry and utilities are located in the unfinished portion of the lower level. The facility is not wheelchair accessible. The home utilizes public water and sewer systems.

The gas furnace and hot water heater are located in the basement with a 1- ¾ inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top of the stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	10'8" x 14'6"	154 sq. ft.	2
2	16' x 12'6"	200 sq. ft.	2
3	12'3" x 11'5"	139 sq. ft.	2

The living and dining areas measure a total of 367 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate six residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

The home was previously licensed as the Texas Manor, License #AS410392760.
