### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

#### **A. Physical Description of Facility**

The Beacon Home @ Ypsilanti is a 3- bedroom, 2 bath ranch home located in a rural area of Ypsilanti. There is an attached garage and office. The facility is NOT wheelchair accessible currently. The furnace and hot water heater are in a room that is constructed of material that has a 1-hour-fire-resistance rating. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1(NW)	14'x13'	182	2
2(SW)	15'x9'9"	146	2
(3(SE))	(13'3"x9'10")	(130)	(2)

The living, dining, and sitting room areas measure a total of 312 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Based on the above information, it is concluded that this facility can accommodate four (4) residents. Since the facility has 3 bedrooms, I put the third bedroom measurements in parenthesis. The licensee can use 2 or 3 bedrooms for the 4 residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

#### **B. Program Description**

Admission and discharge policies, program statement, refund policy, personnel policies, and standard procedures for the facility were reviewed and accepted as written. The applicant intends to provide 24-hour supervision, protection and personal care to four (4) male or female ambulatory adults whose diagnosis is developmentally disabled or mentally impaired, in the least restrictive environment possible. The program will include social interaction skills, personal hygiene, personal adjustment skills, and public safety skills. A personal behavior support plan will be designed and implemented for each resident's social and behavioral developmental needs. Residents will be referred from various CMH boards and private sources.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The licensee will provide all transportation for program and medical needs. The facility will make provision for a variety of leisure and recreational equipment. It is the intent of this facility to utilize local community resources including public schools and libraries, local museums, shopping centers, and local parks.
