II. Purpose of Addendum

Mary Parson's, licensee, has added a 12' x 16' bedroom addition on to her home. Mary is requesting an approval of the addition to be used for two residents and to increase the facility capacity from four residents to six residents. On August 15, 2018 the addition was inspected and measured.

III. Methodology

The licensee submitted a request for modification for a change in capacity from four residents to six residents due to adding an addition on to the facility. The licensee submitted certificate of occupancy from the Gratiot County Building Inspector. 'The 12'x6' square foot addition is adequate for two residents. The living and dining areas in the facility measured 267 square feet total. This is more than adequate for six residents. On August 15, 2018 the addition was inspected and measured.

IV. Description of Findings and Conclusions

The consultant received and reviewed the documents and observed-measured the addition. The bedroom was furnished with bed, mirror, chair and two closets for the residents.

V. Recommendation

I recommend that the bedroom addition to the facilities be approved so that capacity can be increased from 4-6 residents.
