IV. Description of Findings and Conclusions

On 01/07/2019, I conducted an onsite inspection of the facility. The facility has a new addition on to the West Side of the house. The addition has 4 new bedrooms, two for resident use, a full bathroom for resident use and a laundry room. The resident rooms measure as follows:

- Room #1 on the new addition:
11.42X10.83=123.68-1.75 (for the wardrobe) =122 square feet.
- This room will accommodate 1 resident, this room will also have a private bathroom which is not finished but measures at 5.17X4.42=22.85.
- Room #2 on the new addition:
11.42X10.83=123.68-1.75 (for the wardrobe) =122 square feet.
- This room will accommodate 1 resident, this room will also have a private bathroom which is not finished but measures at 5.17X4.42=22.85

On 11/30/2018, a review was completed of the documentation regarding the facility's intent to provide care for residents with a diagnosis of Alzheimer's and the components set in place to assure the staff are providing optimal supervision, protection and personal care to those residents.

V. Recommendation

- I recommend an increase in the capacity of the facility from 4 to 6 residents.
- I recommend the addition of Alzheimer's as a population served at this facility to the license.
