## II. Purpose of Addendum

A request was received by the Department to modify the Original Licensing Study Report to include an additional bedroom so that two of the resident bedrooms will now be single rooms. The space converted does not negatively effect the general living space enjoyed by the residents.

## III. Methodology

On 07/09/2019, I completed an on-site inspection of the facility and measured the new bedroom.

## IV. Description of Findings and Conclusions

I measured the new bedroom; it is 13'6" by 7' or 94.5 square feet. The bedroom is furnished per licensing requirements, has a closet, and an easily openable window.

## V. Recommendation

I recommend that the converted space be approved for use as an additional bedroom for 1 resident. This does not impact the capacity of the facility which remains at 6.
