ADDENDUM TO ORIGINAL LICENSING STUDY REPORT**

Facility Telephone #:	(810) 441-3899
Capacity:	4
Program Type:	DEVELOPMENTALLY DISABLED AGED

II. Purpose of Addendum

The purpose of this addendum is to increase the facility's capacity from 3 to 4 residents, to license the basement of the facility for resident use, and to license a room in the basement to be used by 1 resident.

III. Methodology

03/02/2015	Contact – Document Received I received a modification request from the licensee asking that they would like to add a resident bedroom and increase their capacity by 1 resident
04/16/2015	Inspection Completed On-Site
05/11/2015	Modify Terms I recommend that the basement be approved for resident use, 1 resident bedroom be approved for resident use in the basement of the facility and the capacity of the home be increased to 4 residents

IV. Description of Findings and Conclusions

On 4/16/15, I conducted an onsite inspection of Winslow Family Home Adult Foster Care facility. I inspected the finished basement of the facility which is completely dry-walled, and took appropriate measurements.

There is one bedroom in the basement which measures 12'11" x 11'9". This is a total of 152 square feet which exceeds the required 65 square feet of usable floor space. The bedroom has one egress window.

In addition, the basement has a large living room which measures 565 square feet and a kitchen area which measures 223 square feet. There are two egress windows located in the living room, one egress door leading directly to the outside of the facility, and the stairway leading to the main floor of the facility which makes up the other means of egress. The kitchen area of the basement has a functional refrigerator and sink but no oven/stove.

V. Recommendation

I recommend that this facility be approved to accommodate 4 clients, with the addition of 1 new bedroom and that the basement of the home be approved for resident use.
