## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

The Piper's Place Adult Foster Care home is a large ranch style home located in a quiet neighborhood just outside of the city limits of Traverse City Michigan. The home features three resident bedrooms and two bedrooms that are used by the Licensee and her family members. The home has two full bathrooms, a half bath powder room, a large living room area, kitchen and dining room area. The home is not equipped to accommodate those that require the use of a wheelchair.

The furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware. The facility is equipped with an interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational. Smoke detectors have been installed near sleeping areas, in the living room, in the basement near the furnace. *\*Fire extinguishers are installed on each floor of the home.*

The facility has a private water system. An environmental health inspection was conducted on April 10, 2015. The Sanitarian determined the facility to be in substantial compliance with applicable rules.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	14'9"X13'3"	195	3
2	15'5"X11'4"	175	2
3	12'X11'	132	2

The living, dining, and sitting room areas measure a total of 496 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate 6 residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
