II. Purpose of Addendum

The purpose of this addendum is to determine if one of the rooms, which is currently being used as a staff office, can be utilized as a single occupancy resident bedroom. This facility is currently licensed for 6 residents, but they have only been housing 5. One of the existing bedrooms is currently licensed for 3 residents. If this modification request is approved, that multi-occupancy bedroom will be used for 2 residents only. The licensee understands that at no time is she to go over her licensed capacity of 6.

III. Methodology

November 25, 2019	Modification request received
January 7, 2020	Inspection completed onsite
January 8, 2020	Modify terms

IV. Description of Findings and Conclusions

On 1/7/20, I conducted an onsite inspection of this facility. I measured the staff office and found it to have 103 square feet of usable floor space. In addition, the room meets all of the other rule requirements to be used as a resident bedroom.

V. Recommendation

I recommend that the room currently used as a staff office, is suitable to be used as a single occupancy resident bedroom. The licensee understands that at no time is she to go over her licensed capacity of 6 residents.
