II. Purpose of Addendum

This addendum is being completed to increase the capacity from 3 residents to 6 residents.

III. Methodology

The Gordons had been working on an addition to their home so they could increase their capacity to 6 residents. The addition is completed, and the family has moved into their new bedrooms. There are 4 bedrooms in the original part of the home that will all now be resident rooms.

On 09/17/2020, I conducted an on-site inspection to verify compliance with the rules and regulations related to increasing their capacity. The Gordons were found to be in compliance with the rules.

IV. Description of Findings and Conclusions

The additional resident bedrooms include:

1 located in the north east of the home is 11'x12' or 132 square feet that can be used for double occupancy.

The second bedroom is also located on the east side of the home is 9.5'x11 or 104 square feet which is single occupancy.

V. Recommendation

I recommend an increase in capacity from 3 to 6 residents.
