## II. Purpose of Addendum

A request was made by the administrator/authorized representative Mark Kincer to decrease the facility's licensed bed capacity to 62.

## III. Methodology

On 12/30/20, an email was received from Mr. Kincer outlining the number of beds to decrease with an attachment of bed changes and a BCAL 1600 application.

On 1/4/21, I requested Mr. Kincer to list the room numbers that he is requesting to decrease beds within.

On 1/5/21, a revised letter was received detailing the room numbers and beds to be decreased.

I updated the licensing file facility room sheets with the new licensed capacity of the revised rooms.

## IV. Description of Findings and Conclusions

Mr. Kincer explained that the reduction in beds is a result of having single occupancy in all but four of the two-bedrooms floor plan styles (Rooms #14, 38, 39, and 49). All the other rooms will remain single occupancy.

## V. Recommendation

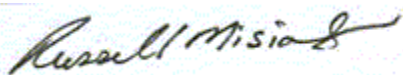

It is recommended that the licensed bed capacity decrease to 62.
