III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The Frentner's Adult Foster Care home is located in a rural wooded area south of the Village of Kingsley, Michigan. It is a ranch style structure with a walk out lower level more than 50 percent above grade. Resident bedrooms and common living space are all on this lower level while the Licensee and her family reside on the upper level of the home. The home has three double occupancy resident bedrooms, a full bathroom, a large common use area and dining room on the lower level. Laundry, kitchen and the licensees' bedrooms, bathroom and living space are on the upper level. The lower level has two egress points at grade and another egress point using a stairway to the upper level. The home can accommodate those who regularly utilize a wheelchair as there are two egress points, at grade, from the resident living area.

An electric hot water heater and a gas fired furnace are located on the lower, resident used level. The furnace is located in a fully drywalled room with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware. The facility is equipped with an interconnected, hardwire smoke detection system, with battery back up, which was installed by a licensed electrician and is fully operational. Smoke detectors have been installed near sleeping areas, in the living room, in the furnace room. **Fire extinguishers are installed on each floor of the home.*

The facility has private water and septic system. An environmental health inspection was conducted on September 16, 2020. The Sanitarian determined the facility to be in substantial compliance with applicable rules.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	13'6"X12'8"	171	2
2	12'8"X12'8"	160	2

3	12'X12'9"	153	2
---	-----------	-----	---

The living, dining, and sitting room areas measure a total of 626 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate **6** residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
