**II. Purpose of Addendum**

The facility is currently licensed to provide 24-hour supervision, protection, and personal care to residents with a developmental disability. License designee and administrator Janice Hurst requested the facility also provide adult foster care services to the mentally ill population.

Ms. Hurst submitted an updated program statement and admission policy that includes the program goals and services to be provided to the developmentally disabled and mentally ill populations. The facility's program will include social interaction, training to develop personal hygiene, personal adjustment, public safety and independent living skills, an opportunity for involvement in educational and/or day programs and

employment, as well as transportation. The facility has a current contractual relationship with the community mental health agency Summit Point, as well as with other CMH service agencies. Referrals to the facility will typically be made by the potential residents' primary clinicians, through the residents' connected CMH service agency.

If needed by residents, behavior interventions and specialized interventions will be identified in the resident's assessment plans. These interventions shall be implemented only by staff trained in the intervention techniques.

In addition to the above program elements, it is the intent of the facility to utilize local community resources for recreational activities including the public schools and library, local museums, shopping centers, churches, etc. These resources provide an environment to enhance residents' quality of life and increase their independence. Ms. Hurst meets the qualifications and training requirements identified in the group home administrative rules and has over 37 years of experience working with the developmentally disabled and mentally ill populations, in various professional capacities. Direct care staff are currently trained to provide services to both populations. Verification of direct care staff training will be maintained in the facility.

### **III. Methodology**

On 03/09/2021 Ms. Hurst requested to add the mentally ill population to the facility's Program Type. Along with this request, Ms. Hurst submitted a revised admission statement, as well as verification she met the qualifications and training requirements identified in the group home administrative rules.

On 03/16/2021 Ms. Hurst submitted to the department a revised program statement, which included the developmentally disabled and mentally ill populations.

### **IV. Description of Findings and Conclusions**

Compliance with the licensing act and administrative rules related to program type have been determined.

**V. Recommendation**

I recommend the mentally ill population be added to the facility's program type.
