There is one furnace and hot water heater in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top/bottom of stairs and there is a second furnace on the ground floor that is in a room that is constructed of material that has a 1-hour-fire-resistance rating. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:
