IV. Description of Findings and Conclusions

This home has added a second wheelchair ramp attached to the front entrance/exit. The ramp is attached to the front porch and extends out across the front of the home toward the driveway. This home already had a wheelchair ramp attached to the large deck at the back of the home, which is located off the sliding glass door in the dining room area. There is now one ramp located at two (2) approved means of egress from the first floor.

V. Recommendation

It is recommended that this home is now wheelchair accessible. The status and capacity of six residents remains unchanged.
