III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:	
R 400.14401	Environmental health.
	(2) Hot and cold running water that is under pressure shall be provided. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the faucet.
At the time of inspection, the water temperatures at the bathroom sinks and kitchen sink were above 120 degrees Fahrenheit. The water temperature needs to be adjusted so that it falls within the acceptable range.	

A corrective action plan was requested and approved on 11/13/2019. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license and special certification.

IV. RECOMMENDATION

An acceptable corrective action plan has been received. I recommend issuance of a regular license and special certification to this AFC adult small group home (capacity 1-6).
