### **ALLEGATION:**

#### **Inadequate supervision and protection of Resident A**

### **INVESTIGATION:**

On 1/06/2023, the department received an incident report from the facility indicating that on 12/31/2022 at 7pm, “[Resident A] was escorted to her unit after dinner by [Associate 1]. [Resident A] collapsed in front of her unit in the hallway on the second floor. At the time she collapsed, it is believed that [Resident A] was not using her oxygen. There is an ongoing investigation to determine when her oxygen was in use”. Additionally, the report indicated that 911 was called and that first responders were unsuccessful in performing life saving measures.

On 1/10/2023, I interviewed administrator Kelly Price at the facility. Ms. Price stated Resident A was prescribed a portable oxygen tank which she was supposed to be using at all times. Ms. Price stated she was on leave when in the incident happened, but it that it was her understanding that Associate 1 was with Resident A when she

collapsed at her door coming back from dinner. During the onsite inspection, I had Ms. Price escort me from the dining area on the first floor to the elevator, then to Resident A's room, the path she stated Resident A and Associate 1 took on the date of the incident. It should be noted that it took approximately 64 steps from Resident A's assigned table to her room. Ms. Price stated Associate 1 had worked at the facility for several months and would have been aware of Resident A's need to have her oxygen with her while ambulating.

On 2/16/2023, I interviewed Ms. Price by telephone. Ms. Price stated she and authorized representative Erica Thrash-Sall did follow up with Associate 1 regarding why Resident A did not have her portable oxygen with her at the time of the incident when being escorted by Associate 1. Ms. Price stated Associate 1 was unable to provide an explanation as to why this happened.

| <b>R 325.1931</b>                    | <b>Employees; general provisions.</b>  |

|                    |  |
|--------------------|--|
| <b>ANALYSIS:</b>   | The department received an incident report from the facility indicating that on 12/31/2022, Resident A was being escorted back to her room from dinner, without her necessary oxygen, and collapse in front of her room. The report further indicated EMS was contacted and arrived to attend to Resident A, however they were unable to revive her, and she passed away. The investigation confirmed Associate 1 escorted Resident A to her room, approximately 64 steps from Resident A's assigned seat in the dining area, without ensuring she had her oxygen. Based on the findings, it is reasonable to conclude that Associate 1 did not adequately protect and supervise Resident A in that while she was aware of Resident A's need for her oxygen while ambulating, Associate 1 did not ensure Resident A had it with her when escorting her back from dinner. |
| <b>CONCLUSION:</b> | <b>VIOLATION ESTABLISHED</b>   |

**ADDITIONAL FINDINGS:**

**INVESTIGATION:**

I reviewed Resident A's service plan, provided by Ms. Price. Under a section titled *Transfer*, the plan indicates Resident A transferred "independently". Under a section titled *Mobility*, the plan indicated Resident A was "independent" with the use of a "walker". Under a section titled *Respiratory Therapy & Oxygen*, the plan indicated "none".

| <b>CONCLUSION:</b> | <b>VIOLATION ESTABLISHED</b>   |

**INVESTIGATION:**

Review of the incident report email submission revealed the facility reported this incident on 1/06/2023.

| <b>ANALYSIS:</b>                     | The incident involving Resident A was revealed to have happened on 12/31/2022, however the department did not receive the incident report until 1/06/2023. Based on the findings the facility is not in compliance with this rule.  |
