II. Purpose of Addendum

The facility is currently licensed to provide 24-hour supervision, protection, and personal care to residents with a developmentally disabled and mental ill diagnosis. Licensee designee and administrator Rose Ogolla has requested the facility to hold a special certification license.

Ms. Ogolla submitted an updated Program Statement and Admission Policy that includes the specialized program goals and services to be provided to the mentally ill and developmentally disabled population. The facility's program will include social interaction, training to develop personal hygiene, personal adjustment, public safety, independently living skills, and an opportunity for involvement in educational and/or day programs and employment, as well as transportation. The facility has a current contractual relationship with Integrated Services of Kalamazoo (ISK) as well as other ISK service agencies. Referrals to the facility will typically be made by the potential residents' primary clinicians, through the resident's connected ISK service agency.

If needed for residents, behavior interventions and specialized interventions will be identified in the resident's assessment plans. These interventions shall be implemented only by staff trained in the intervention techniques.

In addition to above program elements, it is the intent of the facility to utilize local community resources for recreational activities including the public schools and library, local museums, shopping centers, churches, etc. These resources provide an environment to enhance residents' quality of life and increase their independence.
