III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

This home is currently licensed and operating as an AFC home by this Licensee. A new application was filed for tax ID purposes. This is a brick home located within the city limits of Whitehall, MI. The resident living area is located on the main floor and includes 4 resident bedrooms, a dining room, a living room, 2 full bathrooms, and the laundry room. This home is wheelchair accessible and has 2 approved means of egress that are equipped with ramps from the first floor. This property is serviced by public water and sewage.

The gas furnace and hot water heater are located on the main floor in a room that is constructed of materials that provide a 1-hour-fire-resistance rating with a 1-3/4 inch solid core door in a fully stopped frame, equipped with an automatic self-closing device and positive-latching hardware. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	16.42 x 11.75	193	1
2	11 x 12	132	1
3	12.75 x 11.42	145.6	1
4	11.92 x 11.42	136	1
5	14.75 x 13	191.75	1
6	12.92 x 11.58	149.6	1

The licensee has the option of putting a maximum of 2 residents in any of the above bedrooms with 130 square feet or more of usable floor space. However, the licensee is not to exceed the capacity of 6 AFC residents.

The living, dining, and sitting room areas measure a total of 652.5 square feet of living space. This complies with the 35 square feet/per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate **six** residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
