III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 400.15401 Environmental health.

(2) Hot and cold running water that is under pressure shall be provided. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the faucet.

Resident room number 13 bathroom faucet was 126 degrees Fahrenheit.

R 400.15408 Bedrooms generally.

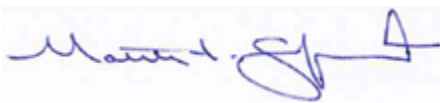

(4) Interior doorways of bedrooms that are occupied by residents shall be equipped with a side-hinged, permanently mounted door that is equipped with positive-latching, nonlocking-against-egress hardware.

Resident bedrooms 5 and 13 both did not have non-locking-against-egress hardware.

On 10/04/2023 I conducted an exit conference with administrator Paula Cassidy. Ms. Cassidy concurred with the findings of the inspection. A corrective action plan was requested and approved on 10/04/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

An acceptable corrective action plan has been received. Renewal of the license is recommended.
