RE: License #: AS820014261
Lindsay Home
33777 Beverly Road
Romulus, MI 48174

Dear Ms. Kennedy:

Attached is the Renewal Licensing Study Report for the facility referenced above. The violations cited in the report require the submission of a written corrective action plan. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific dates for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the licensee or licensee designee or home for the aged authorized representative and a date.

Upon receipt of an acceptable corrective plan, a regular license will be issued. If you fail to submit an acceptable corrective action plan, disciplinary action will result.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (313) 456-0380.

Sincerely,

A handwritten signature in black ink, appearing to read 'Denasha Walker', with a horizontal line extending to the right.

- Number of excluded employees followed-up? N/A
- Variances? Yes (please explain) No N/A

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 330.1803 Facility environment; fire safety.

(6) Evacuation assessments shall be conducted within 30 days after the admission of each new client and at least annually thereafter. The specialized program shall forward a copy of each completed assessment to the responsible agency and retain a copy in the home for inspection. A home that is assessed as having an evacuation difficulty index of "impractical" using appendix f of the life safety code of the national fire protection association shall have a period of 6 month from the date of the finding to either of the following:

(a) Improve the score to at least the "slow" category.

(b) Bring the home into compliance with the physical plant standards for "Impractical" homes contained in chapter 21 of the 1985 life safety code of the national fire protection association, which are adopted by reference in these rules and which may be obtained from the Department of Mental Health, Lewis Cass Building, Lansing, MI 48913, at cost, or from the National Fire Protection Association Library, Battermarch Park, P.O. Box 9101, Quincy, Massachusetts 02269-9101, 1-800-344-3555. A prepaid fee may be required by the national fire protection association for a copy of the chapter 21 standards. A price quote for copying of these pages may be obtained from the national fire protection association.

At the time of inspection, an evacuation assessment (E-Score) was completed on 07/29/2022 following admission of Resident A, admitted 07/05/2022. The E-Score did not include all residents in the home.

An E-Score was also completed on 08/01/2022, including all residents except Resident A.

R 400.14315 Handling of resident funds and valuables.

(3) A licensee shall have a resident's funds and valuables transaction form completed and on file for each resident. A department form shall be used unless prior authorization for a substitute form has been granted, in writing, by the department.

At the time of inspection, Resident A's funds and valuables part II transaction form was not thoroughly completed.

R 400.14403 Maintenance of premises.

(1) A home shall be constructed, arranged, and maintained to provide adequately for the health, safety, and well-being of occupants.

At the time of inspection, the resident bathroom door (located in the main hallway) appears warped. The door is not flushed with the doorframe, creating a gap on the lower half of the door.

R 400.14403 Maintenance of premises.

(5) Floors, walls, and ceilings shall be finished so as to be easily cleanable and shall be kept clean and in good repair.

At the time of inspection, the walls were unfinished in the living room near the patio door and the West walls in Residents B and C's bedroom.

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
