RE: License #: AH560360912
Candlestone Assisted Living
4124 Waldo Avenue
Midland, MI 48642

Dear Sara Dickendeshier:

Attached is the Renewal Licensing Study Report for the facility referenced above. The violations cited in the report require the submission of a written corrective action plan. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific dates for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the licensee or licensee designee or home for the aged authorized representative and a date.

Upon receipt of an acceptable corrective action plan, a regular license will be issued. Please review the enclosed documentation for accuracy and contact me with any questions. If I am not available, and you need to speak to someone immediately, please feel free to contact the local office at (517) 284-9730.

Sincerely,

A handwritten signature in cursive script that reads "Aaron Clum".

- Number of excluded employees followed up? 2 N/A

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:	
R 325.1922	Admission and retention of residents.
	<p>(7) An individual admitted to residence in the home shall have evidence of tuberculosis screening on record in the home which consists of an intradermal skin test, chest x-ray, or other methods recommended by the local health authority performed within 12 months before admission. Initial screening may consist of an intradermal skin test, a blood test, a chest x-ray, or other methods recommended by the public health authority. The screening type and frequency of routine tuberculosis (TB) testing shall be determined by a risk assessment as described in the 2005 MMWR "Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health-Care Settings, 2005" (http://www.cdc.gov/mmwr/pdf/rr/rr5417.pdf), Appendices B and C, and any subsequent guidelines as published by the centers for disease control and prevention. A home, and each location or venue of care, if a home provides care at multiple locations, shall complete a risk assessment annually. Homes that are low risk do not have to conduct annual TB testing for residents.</p>
Upon request, the facility was unable to provide an annual TB risk assessment which included residents.	
R 325.1923	Employee's health.
	<p>(2) A home shall provide initial tuberculosis screening at no cost for its employees. New employees shall be screened within 10 days of hire and before occupational exposure. The screening type and frequency of routine tuberculosis (TB) testing shall be determined by a risk assessment as described in the 2005 MMWR Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health-Care Settings, 2005 (http://www.cdc.gov/mmwr/pdf/rr/rr5417.pdf), Appendices B and C, and any subsequent guidelines as published by the centers for disease control and prevention. Each home, and each location or venue of care, if a home provides care at multiple locations, shall complete a risk assessment annually. Homes that are low risk do not need to conduct annual TB testing for employees.</p>

Upon request, the facility was unable to provide an annual TB risk assessment which included staff.	
R 325.1924	Reporting of incidents, accidents, elopement.
	<p>(1) A home for the aged must implement and maintain a quality review program consistent with section 20175(8) of the act, MCL 333.20175, and the professional review function. The program is responsible for all of the following:</p> <p>(a) Reviewing and evaluating incidents.</p> <p>(b) Identifying effective means to correct any deficient practice.</p> <p>(c) Ensuring resident safety and quality of care.</p> <p>(d) Improving procedures.</p> <p>(2) The program must be reviewed annually by the administrator and governing body.</p> <p>(3) The program must be staffed by a multi-disciplinary team. The multi-disciplinary team shall consist of not less than 2 personnel that have training or experience with the type of the incident being evaluated.</p> <p>(4) The multi-disciplinary team shall meet not less than twice each calendar year or more frequently as needed to review an incident or incidents.</p> <p>(5) Records must be maintained that demonstrate incident reporting</p>
Upon request, the facility was unable to provide evidence of a quality review program consistent with section 20175(8) of the act, MCL 333.20175, and the professional review function.	

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
