II. Purpose of Addendum

To update the population served on this license to include provisions for the mentally ill.

III. Methodology

On 2/5/24 I received a telephone communication from licensee, Andy Venn, requesting a special certification be issued for the facility. Mr. Venn reported that he would like to have a special certification to serve the resident populations of developmentally disabled and mentally ill. The current license has been issued to provide care to developmentally disabled and aged individuals. I requested an updated resume highlighting experience working with mentally ill individuals in a direct care capacity for a period of at least one year.

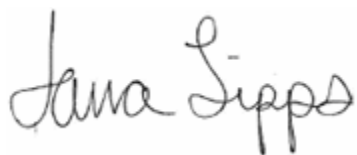

On 2/5/24 Mr. Venn provided an updated resume highlighting that he has work experience working for the Listening Ear Home Care, in Mt. Pleasant, MI, from September 2008 through October 2010. It is documented on Mr. Venn's resume that he provided direct care services to mentally ill and developmentally disabled residents while working at this organization.

IV. Description of Findings and Conclusions

Adequate documentation has been provided to prove that Mr. Venn has at least one year of experience working with individuals diagnosed with mental illness.

V. Recommendation

Modify the current population served to include provisions to care for individuals with mental illness.
