ALLEGATION:

The home does not provide adequate protection to its residents.

INVESTIGATION:

On 10/26/22, I interviewed Employee #1 at the home. Employee#1 stated that Resident A had taken the remotes to the other televisions in the home. She added that Resident B had expressed to others in the home that a close relative had recently passed away. She explained that Resident B had informed her that Resident A was the one who had taken the remotes, and when she went to confront him over the issue, Resident A grew upset, swung at Resident B and made derogatory comments about Resident B's deceased relative. Employee #1 stated that she tried unsuccessfully to deescalate the situation but both residents continued to fight. Employee #1 stated that she called the licensee and the police. She stated

that the police responded and determined that Resident A was the aggressor and placed him in jail that day. She reported that a no contact order was put in place initially but has since been lifted. She stated that the home took steps to manage their interactions once resident A was released from jail: they were placed in separate rooms and meal times were managed so that they did not interact. Employee #1 stated that the fight and arrest occurred in September 2022

I observed a City of Adrian Police report referencing the fight between Resident A and Resident B. The document indicates that Resident A was determined to be the aggressor by the responding police officer.

I interviewed Employee #2. Employee #2 stated that she was not there at the time of the incident and had no knowledge of it.

I interviewed Resident A. Resident A stated that he was arrested after the police were called to the home. He reported that the police were called because a fight broke out between him and Resident B. He stated that he did not feel safe in the home anymore as a result of the fight. He was asked what measures the employees took to address the aftermath of the fight. He answered that the home did separate them, as they were prior room mates.

I interviewed Resident B. Resident B reported that Resident A swung a punch at him after he told staff that Resident A had hidden some TV remotes. He stated that he defended himself. He reported that the police were called to intervene and noted that Resident A was arrested. He stated that interactions between him and Resident A have been cordial of late and denied any instances of further aggression.

On 10/27/22, I spoke with the complainant via telephone. The complainant added that it was alleged that a non-employee had provided relief to an employee on shift during a subsequent interaction at the home. The complainant denied any safety issues or interruptions in service or operations.

APPLICABLE RULE	
R 400.14305	Resident protection.
	(3) A resident shall be treated with dignity and his or her personal needs, including protection and safety, shall be attended to at all times in accordance with the provisions of the act.
ANALYSIS:	Employee #1 stated that because she was unable to stop the fight, she called the police. The police responded and based on their conclusions, arrested Resident A. Once Resident A returned from jail, the home took steps to manage the environment so that tensions could be reduced. Resident A and

	Resident B were also placed in separate rooms. It would appear that the home took steps to address resident safety.
CONCLUSION:	VIOLATION NOT ESTABLISHED

On 12/2/22, I conducted an exit conference with licensee Vicki Cates. She agreed with the findings.

IV. RECOMMENDATION
