II. Purpose of Addendum

The licensee requested to add another bedroom for resident use.

III. Methodology

On 05/09/2024, I received a telephone call from Beauty Bipasha, Licensee, expressing a desire to add the bedroom in the basement so that it can be assigned for resident use. I informed Ms. Bipasha that I would need to make an onsite inspection to verify the room meets all the licensing requirements.

On 05/10/2024, I made an onsite inspection and met with Ms. Bipasha. I inspected the bedroom in the basement and determined that it does meet all of the licensing requirements with the exception of locking hardware on the door.

On 05/10/2024, I received an email from Ms. Bipasha requesting to use the bedroom in the basement as a resident bedroom.

On 05/10/2024, I sent a reply email to Ms. Bipasha confirming receipt of her email and reminding her to notify me when the bedroom lock was changed.

On 05/20/2024, I received an email from Ms. Bipasha stating that the correct door-knob and lock have been installed on the bedroom door in the basement.

On 05/20/2024, I sent Ms. Bipasha an email stating that I would be returning to the home to inspect the lock later on this same day.

On 05/20/2024, I made an onsite inspection and verified that the lock on the basement bedroom is a one-motion, non-locking against egress device.

IV. Description of Findings and Conclusions

The proposed fourth bedroom in the basement measured at 8'10" by 15'1" for a total of 133 square feet; the entire ceiling is more than 6'6" high (it was an 8' ceiling); and there is a dresser, chair, mirror, closet, and a bed that meets the size and comfort rules. The room was also clean and in good condition. The room has a one-motion, non-locking-against-egress doorknob and lock. I reminded Ms. Bipasha that this additional bedroom would not mean an increase in her licensed capacity. Ms. Bipasha was aware of this and said that she just wanted the extra room so that she could have two residents in the large bedroom that was approved for three residents so those two residents would have more space.

V. Recommendation

I recommend that the bedroom in the basement as described above be approved for use as a resident bedroom.
