	<p>(2) Except as otherwise provided in this subsection or subsection (6), an adult foster care facility shall not employ or independently contract with an individual who has direct access to residents until the adult foster care facility or staffing agency has conducted a criminal history check in compliance with this section or has received criminal history record information in compliance with subsections (3) and (11). This subsection and subsection (1) do not apply to an individual who is employed by or under contract to an adult foster care facility before April 1, 2006. On or before April 1, 2011, an individual who is exempt under this subsection and who has not been the subject of a criminal history check conducted in compliance with this section shall provide the department of state police a set of fingerprints and the department of state police shall input those fingerprints into the automated fingerprint identification system database established under subsection (14). An individual who is exempt under this subsection is not limited to working within the adult foster care facility with which he or she is employed by or under independent contract with on April 1, 2006 but may transfer to another adult foster care facility, mental health facility, or covered health facility. If an individual who is exempt under this subsection is subsequently convicted of a crime or offense described under subsection (1)(a) to (g) or found to be the subject of a substantiated finding described under subsection (1)(i) or an order or disposition described under subsection (1)(h), or is found to have been convicted of a relevant crime described under 42 USC 1320a-7(a), he or she is no longer exempt and shall be terminated from employment or denied employment.</p>

R 400.1418	Resident medications.
	(4) When a licensee or responsible person supervises the taking of medication by a resident, the licensee or responsible person shall comply with the following provisions: (a) Maintain a record as to the time and amount of any prescription medication given or applied. Records of prescription medication shall be maintained on file in the home for a period of not less than 2 years.

During the onsite inspection, Resident E’s medication administration record (MAR) did not list the correct dosage for her vitamins and supplements and did not have the label instructions for use. Resident L’s MAR did not have the AM dose of Novolog listed. Resident L’s MAR did not include the correct units for her Lantus. The units of Novolog being administered to Resident L per the sliding scale was not being consistently documented for the AM dose.

R 400.1418	Resident medications.
	(5) Prescription medication shall be kept in the original pharmacy supplied and pharmacy-labeled container, stored in a locked cabinet or drawer, refrigerated if required, and labeled for the specific resident.

During the onsite inspection, medications were not in the original pharmacy supplied container, as the licensee was using a weekly pill organizer to store some resident medications. The licensee also put resident medications into bubble packs that were not supplied or labeled by the pharmacy.
