This facility was found to be in non-compliance with the following rules:

R 400.14103	Licenses; required information; fee; effect of failure to cooperate with inspection or investigation; posting of license; reporting of changes in information.
	(5) An applicant or licensee shall give written notice to the department of any changes in information that was previously submitted in or with an application for a license, including any changes in the household and in personnel-related information, within 5 business days after the change occurs.
Compliance Director, Andrea Lapp, indicated that Jacqueline Wilson is no longer acting as the Administrator for Beacon Home At New Haven. It was reported that Kelly Krutsch is now the Administrator for home. A date has not been provided as to when the change took place or a request received to add Ms. Krutsch as the new Administrator for the home.	
R 400.14204	Direct care staff; qualifications and training.
	(3) A licensee or administrator shall provide in-service training or make training available through other sources to direct care staff. Direct care staff shall be competent before performing assigned tasks, which shall include being competent in all of the following areas: (d) Personal care, supervision, and protection.
Staff, Mackenzie Ingram and Stacy Harrison, did not have verification of personal care, supervision, and protection training in employee files.	
REPEAT VIOLATION ESTABLISHED Reference LSR dated 09/19/2022, CAP dated 10/05/2022	
R 400.14312	Resident medications.
	(4) When a licensee, administrator, or direct care staff member supervises the taking of medication by a resident, he or she shall comply with all of the following provisions: (b) Complete an individual medication log that contains all of the following information: (v) The initials of the person who administers the medication, which shall be entered at the time the medication is given.

The home is utilizing both electronic and paper medication logs. Resident A's Metformin (5PM) was not initiated as given by staff on 08/18/2024 on either log.	
R 400.14401	Environmental health.
	(2) Hot and cold running water that is under pressure shall be provided. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the faucet.
During the onsite inspection, I measured the water temperature with a digital thermometer. The water temperature only measured as high as 103.8 degrees Fahrenheit.	
R 400.14403	Maintenance of premises.
	(1) A home shall be constructed, arranged, and maintained to provide adequately for the health, safety, and well-being of occupants.
During the onsite inspection, I observed Bedroom #1 had rusted vent.	
REPEAT VIOLATION ESTABLISHED Reference LSR dated 09/19/2022, CAP dated 10/05/2022	
R 400.14403	Maintenance of premises.
	(5) Floors, walls, and ceilings shall be finished so as to be easily cleanable and shall be kept clean and in good repair.
During the onsite inspection, I observed that Bedroom #2 had brown stain on ceiling. The bedroom walls also need cleaning and had what appeared to be drip marks towards ceiling. The windowsill also had damage from possible water or moisture issue in bedroom.
