II. Purpose of Addendum

Licensee Shari Blackburn submitted a modification request on 9/03/2024 requesting for the capacity to be increased from a capacity of five to six residents.

III. Methodology

Licensee Shari Blackburn submitted a modification request on 9/03/2024 documenting that Noah Parrish has moved out and therefore no longer in the occupant count for capacity.

IV. Description of Findings and Conclusions

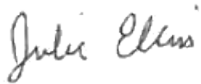

Licensee Shari Blackburn submitted a modification request on 9/03/2024 to increase capacity from five to six residents. The indoor living and dining areas measures a total of approximately 3,000 square feet of living space which exceeds the minimum of 35 square feet per resident. There are four resident bedrooms and the dimensions are as follows:

- Bedroom #1 16 x 15, 240 square feet can accommodate 2 residents.
- Bedroom #2 11 X 8, 11 X 6 154 square feet and can accommodate 2 residents.
- Bedroom #3 11 X 16, 176 square feet and can accommodate 2 residents.
- Bedroom #4 10 X 12, 120 square feet and can accommodate 1 resident.

Although some of the resident bedrooms are large enough to accommodate a same sex roommate or a married couple, the applicant understands the license capacity of 6 residents cannot be exceeded. There is adequate resident bedroom space as well as living space to accommodate this increase in capacity to six residents. The licensee, her spouse and other family members that reside in the home have bedrooms in a separate wing on the opposite side of the home/in the basement and not in resident areas.

V. Recommendation

I recommend that the facilities capacity be increased from five residents to six residents.
