### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

#### A. Physical Description of Facility

This is a new construction 20 bed ranch style facility. There are 17 one bed private rooms and 3 semiprivate bedrooms. There are separate kitchen and laundry facilities on the premises. There is ample parking on the facility site for staff, family members and any professional staff. It utilizes public water and public sewer. The facility is wheelchair accessible. The fire safety was approved by the OFS. The furnace and hot water heater are in a room that is constructed of material that has a 1-hour-fire-resistance rating. The facility is equipped with interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	15'x20'	300	2
2	15'x20'	300	2
3	15'x20'	300	2
4-17	13'x11'6"	150	One (1) resident per room up to a maximum of 14 residents

The living, dining, and sitting room areas measure a total of 1825 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

A personal behavior support plan will be designed and implemented for each resident's social and behavioral developmental needs. Residents will be referred from private sources.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.
