ALLEGATION:

Staff, Rachell Jallow, spit on Resident A because he refused to take his medication. On 04/03/2025 someone punched Resident B in the face and about three months ago, Resident C pulled a knife on Resident B.

INVESTIGATION:

On 04/24/2025, I made a telephone call to Sherry Underwood, from the Office of Recipient Rights, for staff, Rachel Jallow's, phone number. She further said, Resident A was still at the facility and was at the crisis center during the time the allegations were made.

On 04/28/2025, I made a telephone call to Rachel Jallow. She denied spitting on Resident A. She stated she told him to take his medication and gave him the cup, but he refused. Resident A started yelling at her and told Resident D to call the police. When the police came, they tried to make him take his medication. He still refused and was yelling profanity at her and them. The police ended up taking him to the hospital because he would not calm down.

On 04/29/2025, I conducted an onsite inspection at the facility and interviewed Resident A. He stated he was sitting on the couch watching a movie when Rachel Jallow spit in face on purpose. This made him mad, so he got loud and started yelling at her and told Resident D to call the licensee designee, Onome Akise, and the police. He said Resident D was the only person who witnessed what happened. When asked why Rachel Jallow spit on him, Resident A explained that she was telling him it was time to take his medication. As she was saying it, spit from her mouth got on him because she was too close. He further reported he never had any other problems with her or anyone else at the facility.

During the onsite inspection on 04/29/2025, I interviewed staff Tiara Avery. She stated she was not present the day of the incident and that Resident A has never

complained to her about mistreatment from staff. Tiara Avery also reported Resident A has behavior issues and when he does not get what he wants, he makes things up or refuses to take his medication.

During the onsite inspection on 04/29/2025, I interviewed Resident D. He stated he did not see Rachel spit on Resident A.

On 04/29/2025, I made a telephone call to Onome Akise. He stated the incident happened on 04/18/2025 and that he made a recipient rights referral regarding it. He explained he received a telephone call from Resident D. Resident D told him Resident A said Rachel Jallow spit on him and that he was threatening her. Onome Akise heard Resident A in the background yelling at Rachel Jallow and saying she spit on him. Rachel Jallow told him she did not, and was talking in a normal tone trying to deescalate Resident A. Onome Akise said Resident A was very loud and agitated, so he told Resident D to call the police. He further said when Resident A has a bad day, he refuses to take his medication and uses it as a way to get what he wants.

On 05/12/2025, additional allegations were received on the facility concerning Resident B.

On 05/23/2025, I conducted another onsite inspection at the facility and interviewed Resident B. He stated on 04/03/2025, he was on the couch sleep, and it felt like someone punched him. When he woke up, he did not see anyone near him, but Resident C and staff, Marshon Black, were present. Resident B also stated that about three months ago Resident C pulled a knife out on him. He explained they were arguing, and he wanted Resident C to come outside and fight him. Resident C did not want to fight, but he grabbed a knife from the kitchen. Resident B said Resident C never came after him with the knife or threatened him with it, but he saw him grab it and knew he had it on his person. Resident B reported they never fought and that the police came. He also said Marshon Black was present and separated them. He was in the process of moving his belongings out the facility during this onsite inspection. He stated he previously moved to a new placement and was getting the rest of his belongings.

During the onsite inspection on 05/23/2025, staff, Lavel Tita, was present. He had no knowledge of the incident but stated Resident B and Resident C argued a lot, and this was why Resident B was moved to another facility.

On 05/27/2025, I made a telephone call to Onome Akise. He said the alleged punching incident happened overnight and everyone was sleep at the time. He stated Resident A woke up saying someone punched him and called the police. They came but nothing was done. Regarding the knife incident, Onome Akise stated Resident B and Resident C were arguing and Resident B wanted Resident C to come outside and fight him. He said Resident B is a very big guy and Resident C is much smaller. Onome Akise assumed this was why he grabbed a knife from the

kitchen. He said the fight never happened because Marshon Black intervened, and the police came. Onome Akise further said, Resident B was discharged the beginning of April 2025, due to his behavior.

On 05/27/2025, I made a telephone call to the facility and interviewed Resident C. He stated no one punched Resident B. Regarding the knife incident, he stated he was in the kitchen preparing himself something to eat because Resident B ate his spaghetti. Resident B was being very aggressive and pushed him. He told him to stop because he was too big for him to fight him and win. Resident B kept trying to get him to fight him, so he got a knife from the kitchen, in case Resident B tried to hurt him. He stated staff did not know he had the knife and he never pulled it out on Resident B.

On 05/29/2025, I made a telephone call to Marshon Black. He stated Resident B was on the couch sleep and he was sitting across from him. He insisted no one punched Resident B and said if they did, he would have saw it. Marshon Black said Resident B woke up claiming he was punched and called the police, saying he was having a mental break down. Marshon Black said he was also working during the knife incident. He said Resident C never pulled a knife on Resident B. He explained that the two residents were arguing, and Resident B kept jumping up at Resident C wanting to fight him and was threatening him. Resident C grabbed a knife from the kitchen. Resident B called the police. Marshon Black was not aware Resident C had a knife until the police came and Resident B told them. The police searched Resident C and found it. He said the residents never fought because he separated them by having Resident C go outside, while he tried to get Resident B to calm down. Marshon Black also indicated that Resident C later stated he grabbed a knife because he was afraid that if Resident B attacked him, no one would be able to protect him.

On 05/30/2025, I made a telephone call to Kimberly Porter, Resident B's case manager from Lincoln Behavioral. She described Resident B as being a bully and said he is very paranoid. Kimberly Porter said Resident C did not want to fight Resident B. She explained he has the tendency to aggravate and intimidate the other residents until he gets a reaction out of them. She stated staff did the best they could with Resident B, but due to his behavior, and having assaulted another resident at the facility in the past, she felt it was best to discharge him.

On 05/30/2025, I made telephone call to Pamela Morgan, Resident A's case manager from Lincoln Behavioral. She was aware of the allegations concerning Resident A and said she was not able to verify that he was ever spat on. She said everyone she talked to denied it happened. Pamela Morgan believed Resident A may have been going through a crisis when he made the allegations.

On 06/12/2025, I made a telephone call to Onome Akise for an exit conference. His voicemail was full, so I sent an email informing him of my investigative findings.

APPLICABLE RULE	
R 400.14305	Resident protection.
	(3) A resident shall be treated with dignity and his or her personal needs, including protection and safety, shall be attended to at all times in accordance with the provisions of the act.
ANALYSIS:	<p>Based on the information obtained during this investigation, there is a lack of evidence to support the allegations. There is no indication that Resident A and Resident B were not treated with dignity and their protection and safety was not attended to. Although Resident A stated staff, Rachel Jallow, spit on him on purpose, he reported it happened as she was talking to him, which makes it accidental. In addition to this, Rachel Jallow denied the allegations and Resident D, the only witness, denied it happened.</p> <p>Resident B had no evidence of being punched and was not certain that it happened. He stated he was sleep at the time and that it felt like someone punched him. Resident C and staff, Marshon Black, were present and stated Resident B was never punched. Although it was confirmed Resident C had a knife, it was never drawn on Resident B. Resident B was the aggressor and admitted to trying to initiate a fight with Resident C. Marshon Black acted appropriately by separating the residents to diffuse the situation. The police also intervened and retrieved the knife. No one was injured and there was no fight.</p>
CONCLUSION:	VIOLATION NOT ESTABLISHED

IV. RECOMMENDATION

I recommend the status of the license is unchanged.
