RE: License #: AS580414641  
**North Monroe St.**  
**930 N. Monroe St.**  
**Monroe, MI 48162**

Dear Ms. Grubbe:

Attached is the Renewal Licensing Study Report for the facility referenced above. The violations cited in the report require the submission of a written corrective action plan. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific dates for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the licensee or licensee designee or home for the aged authorized representative and a date.

Upon receipt of an acceptable corrective plan, a regular license will be issued. If you fail to submit an acceptable corrective action plan, disciplinary action will result.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (313) 456-0439.

Sincerely,

### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was determined to be in substantial compliance with rules and requirements.

This facility was found to be in non-compliance with the following rules:

**R 330.1803 Facility environment; fire safety.**

**(6) Evacuation assessments shall be conducted within 30 days after the admission of each new client and at least annually thereafter. The specialized program shall forward a copy of each completed assessment to the responsible agency and retain a copy in the home for inspection. A home that is assessed as having an evacuation difficulty index of "impractical" using appendix f of the life safety code of the national fire protection association shall have a period of 6 months from the date of the finding to do either of the following:**

**(a) Improve the score to at least the "slow" category.**

At the time of inspection, I observed the following:

- The e-score for Resident C who was admitted on 10/12/23 was not completed until 11/14/23. Additionally, the e-score was not fully complete as it lacked evacuation scores for three of the four residents and the staff scores were incorrect, making the entire assessment incorrect.
- Resident A was admitted into the home on 01/05/24 and an e-score was not completed until 02/12/24.
- The e-score completed 06/20/25 was incorrect due to the incorrect scores for residents and staff. After technical assistance was provided, this e-score was updated to reflect the correct score.

**R 400.14208 Direct care staff and employee records.**

**(1) A licensee shall maintain a record for each employee. The record shall contain all of the following employee information:**

**(f) Verification of reference checks.**

At the time of inspection, I observed staff, Patricia Thole, employee record only contained one reference.

**R 400.14301      Resident admission criteria; resident assessment plan; emergency admission; resident care agreement; physician's instructions; health care appraisal.**

(9) A licensee shall review the written resident care agreement with the resident or the resident's designated representative and responsible agency, if applicable, at least annually or more often if necessary.

At the time of inspection, I observed that Resident B's annual care agreement, which was due to be completed in June of 2025, was not completed until 10/16/25. The care agreement also did not contain the signature of the guardian.

**R 400.14403      Maintenance of premises.**

(2) Home furnishings and housekeeping standards shall present a comfortable, clean, and orderly appearance.

At the time of inspection, I observed all of the front cabinet doors missing from the kitchen cabinets, exposing all food items, pots, pans garbage disposal etc. All of the cabinets need to be equipped with doors.

Additionally, I observed a large metal two drawer cabinet in the bathroom being stored in the walk-in shower. The metal cabinet is an obstruction, and it takes away the full use of the shower.

**R 400.14511      Flame-producing equipment; enclosures.**

(2) Heating plants and other flame-producing equipment located on the same level as the residents shall be enclosed in a room that is constructed of material which has a 1-hour-fire-resistance rating, and the door shall be made of 1 3/4-inch solid core wood. The door shall be hung in a fully stopped wood or steel frame and shall be equipped with an automatic self-closing device and positive-latching hardware.

At the time of inspection, I observed the automatic self-closing device missing from the door, preventing it from automatically closing and latching.

#### IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
