III. Methodology

11/18/2025 Onsite Inspection Completed

11/18/2025 Exit Conference – Discussed findings with
Licensee Designee, Angela Joquico

IV. Description of Findings and Conclusions

On 11/18/2025, I completed an onsite inspection and assessed the residents' bedrooms. Per the original licensing study report, there were four single bedrooms and one double bedroom, with the facility being approved for a capacity of six resident bedrooms. My assessment of the residents' bedrooms found that with the staff's office being modified into a resident bedroom, the facility will have six single bedrooms, allowing the facility to continue operating for a capacity of six residents.

On 11/18/2025, resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	20.0 X 10.0	200 SQ. FT.	1
2	12.0 X 12.0	144 SQ. FT.	1
3	14.0 X 10.0	140 SQ. FT.	1
4	9.0 X 14.0	126 SQ. FT.	1
5	10.0 X 14.0	140 SQ. FT.	1
6 (formally staff office)	10.0 X10/7	107 SQ. FT.	1

The living, dining, and sitting room areas measure a total of 304 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Upon further assessment of the resident bedrooms, I found that all rooms meet the requirements listed in rules 400.659 – bedroom space and 400.661 – bedroom furnishings.

V. Recommendation

I recommend that the room formerly identified as the staff office meets all requirements listed for a resident bedroom and may therefore be used as a resident single occupancy bedroom. The approved capacity for this small adult foster care group home will remain at six.
